

# Space Heaters

## Proper Usage:

- Shall be listed and approved by a nationally recognized testing laboratory (U.L., ETL, FM)
- Shall be thermostatically controlled to shut off when the unit reaches maximum temperature
- Shall be protected with an automatic shutoff feature to shut down if heater is knocked over
- Shall be plugged directly into a wall receptacle with adequate current
- Shall never be plugged into an extension cord to extend the reach to a wall outlet
- Shall be placed at least 3ft. away from combustible materials (paper, furniture, etc.)
- Shall be kept in good working condition with no frays or tears in the cord
- Shall never be left unattended
