Pre-Use Activities

- Review and understand information provided in the pedestal or bench grinder operator’s manual with particular attention given to descriptions of safety procedures.

- Inspect the pedestal or bench grinder for damage or disrepair. Assure work rests, eye shields, and wheel, tongue, and spindle guards are in place and secured. Inspect the electrical cord and plug for defects.

- If a pedestal or bench grinder fails the pre-use inspection, notify your supervisor and remove the grinder from service by attaching a red tag that states “OUT OF SERVICE.” Complete red tag with appropriate information.

Operating Precautions

- Wear safety goggles or a face shield when using a pedestal or bench grinder.

- Never wear gloves, a tie, loose clothing, a watch, rings, or jewelry when using a pedestal or bench grinder. Tie long hair back or secure under a cap.

- Use abrasion wheels that are rated consistent with the speed rating of the pedestal or bench grinder.

- Only dress abrasion wheels on the face with a diamond dresser.

- Never use an abrasion wheel that vibrates.

- Set the work rest no greater than 1/8 inch from the abrasion wheel.

- Never start the grinder with a workpiece against the abrasion wheel.

- Only apply the workpiece to the face of the abrasion wheel.

- Do not grind magnesium or aluminum. Fire or explosion may occur.

- Keep hands and fingers at least two inches from the rotating abrasion wheel.

- Cool the workpiece by dipping it in water. Do not apply coolant water to the abrasion wheel.

- Turn off the pedestal or bench grinder and disconnect the power source prior to making pedestal or bench grinder adjustments or repairs.

- Clean the pedestal or bench grinder work area upon completion of the grinding task.
